Early Excellence are delighted to be working in partnership with Sutton-in-Craven Community Primary School to offer a range of inspirational training sessions for your EYFS and KS1 teams to challenge and inform teaching, practice and provision

Develop subject
knowledge &
practical solutions

Venue: Sutton in Craven CP School, Bridge Road, Keighley, BD20 7ES

Course	Time	Cost
Day 1: Tuesday 5th May 2020		
How to Ensure Smooth Transitions into KS1	1.00pm – 3.00pm	£55.00 (exc. VAT) per person
Transition is not an event, but a process. The transition from Reception into Y1 continues to be a challenge and area of debate for many schools and for many children. This course will explore ways to make the best use of evidence that has been captured about children's learning. Throughout the session, delegates will consider key principles for transition and practical ways to ensure this is as smooth and successful as possible; with opportunities to reflect on their current process and consider a developmentally and age appropriate approach moving forward. Audience: KS1 Leaders, Teachers & TAs		

Day 2: Tuesday 9th June 2020		
Developing Young Mathematicians	9.30am – 3.30pm	£125.00 (exc. VAT) per person
This new course is focused on the fundamentals of teaching Mathematics in the Early Years, as it is more important than ever that teachers have a keen understanding of how children develop mathematical concepts.		
The day will be highly-informative, packed with subject knowledge and practical solutions to enable schools to reflect on their approach to teaching Maths through the EYFS and into Y1 – whether through a scheme or not – and will examine the principles that underpin this early learning and the key steps towards progression and mastery. Audience: Maths Leads, EYFS Leads & EYFS Teachers
