

## Year 2

# Snow day home learning!

Dear Children,

I hope you've had lots of fun playing in the snow! Here are some learning activities you might like to do whilst you're not in school. You can choose which activities to complete, you might even want to do more than one. Bring it into school so I can see what you have done and give out lots of stamps!

Stay safe and warm!

Miss Robinson.

In maths we have recently been learning all about time. Have a go at answering these questions.

Also keep practising your 2, 5 and 10 times tables!

1. Amira arrived at a party at 2 o'clock in the afternoon.

Lulu arrived 1 hour after Amira.

Ruby arrived 1 hour after Lulu.

Sam arrived half an hour after Ruby.

The party started at 4 o'clock in the afternoon. Are Amira, Lulu, Ruby and Sam on time?

2. The table shows the times when some children start their swimming lessons.

Which **2** children have lessons between Harry and Sita?

name	time
Desi	9.15 am
Ella	9.45 am
Harry	8.45 am
Sita	7.15 am
Tom	8.15 am
Vicky	7.45 am

Last week in English we were writing stories.

- \* Can you write me a story about the snow? I wonder if you could use lots of description in your writing and even my favourite word *because*?
- \* You might like to write about your day in the snow instead and tell me all about the things you got up to.

Under the sea.

This is our fantastic topic this half term that was chosen by you!

- \* What would you like to learn about over the next few weeks? Write this down so that I can try my best to include this in our learning.
- \* Can you find out something fascinating to tell everyone in our class to do with our topic? It might be about a specific sea creature or vehicles that are used in the sea. I'm sure you can discover some amazing facts to tell us all.
