

**English** When we are back in school we will be learning the songs and script for our play of Shakespeare's "The Tempest". You could watch the cartoon episodes of The Tempest on Youtube with an adult made by BBC Teach Primary English and then draw and write about your favorite character/characters from the story.

## Home Learning for Snow Days

Year 3

### People Who

### Changed the World

**Maths** Fractions We have started learning about fractions in class and we have already added and subtracted fractions. You could draw some fractions, split some pieces of paper into fractions or show some fractions practically with food like pizza, apples or sweets. You could even draw some fractions in the snow and take a photo.

**Science** Forces and Magnets You could try building slopes for cars in the snow and testing different surfaces for them to move on, like we did in class. Which is the most slippy, ice or snow? I think I found out the answer today!

#### Other ideas

You could make a snowflake picture, write a diary about the snow days or write a story about your snowman.

**PSHCE** For PSHCE this term we are thinking about the future. You could write a letter to your future self about this week and about your plans for the future.

Here are some ideas  
for home learning tasks  
you can try at home .

Hope we are all back together in year three soon. Mrs W.

**Art/DT** We have already learned about the artist Van Gogh. Could you research another famous artist or draw/paint a picture of a different person who changed the world.

**Computing** You could continue using "Scratch" to make objects move and change their appearance, as we have practised in school.

**Spanish** You could find out the word for snow, snowman or blizzard. I'm sure Senora Stansfield will be impressed when you tell her.

**Music** You can practise the words for our production that you brought home on Monday.

**Outdoor Learning.** I know lots of people have been doing some great Outdoor Learning in the snow. I look forward to hearing all about it.
